

WHY EYE LEVEL?

PROVEN CONTENTS

Eye Level learning centers provide supplemental English and Math programs with high-quality curricula proven to be effective over the past 38 years.

INDIVIDUALIZED SOLUTIONS

Eye Level programs meet each student's needs by offering a customized learning solution that is tailored to a student's individual learning style and academic level.

MASTERY OF THE MATERIAL

One-on-one coaching of new topics, problem solving, online practice, and reinforcement with supplemental materials help students master concepts.

GOOD STUDY HABITS

An emphasis on self-directed learning helps students improve their concentration and build good study habits.

A STORY ABOUT A TEACHER WHO CHANGED HIS PERSPECTIVE

A man was appreciating the artwork at the Smithsonian Museum in Washington, D.C. As he approached each painting, he would kneel down and look up. A curious visitor asked him why he was looking at the paintings from his knees. He replied, "I am an elementary school teacher and I will bring my students here tomorrow. I was wondering how my students would enjoy the paintings from a student's eye level."

EYE LEVEL MATH

CULTIVATE CRITICAL AND ANALYTICAL THINKING SKILLS WITH BTM AND CTM

Eye Level Math enables students to cultivate mathematical thinking and master concepts by improving basic arithmetic and problem-solving skills.

BASIC THINKING MATH

ONLINE + OFFLINE

Understand the foundation of mathematics
